Carlos J. Ruiz Salguero and topology. (Spanish).

Lect. Mat. 16, No. 1, 101-118 (1995).

This paper presents an overview of Carlos Ruiz-Salguero's work on topology. The paper deals with his results on homotopy, dynamical systems, theory of convergence and categorical topology. It includes a collected bibliography of Ruiz's works since 1976 up to 1992.
