

Aroca, J. M.

01008

The problems of realizability and dimension invariance in the works of Flores de Lennus. (Spanish).

In: Padilla Gálvez, Jesús (ed.) et al., Wittgenstein and the Vienna Circle. Proceedings of the international congress, Toledo, Spain, November 2-5, 1994. Cuenca: Ediciones de la Universidad de Castilla-La Mancha, (ISBN 84-89958-26-2). Estudios, 49, 249-260 (1998).

After a concise, precise and clear explanation of the basic concepts of topology, Aroca describes some of Flores de Lennus's contributions in the mid 1930s. *Alejandro Gariadiego (México)*.
