

03A PHILOSOPHICAL AND CRITICAL

Resado Haddock, Guillermo E.

03002

To be a Fregean or to be a Husserlian: That is the question for Platonists.

In: Carnielli, Walter A. (ed.) et al., *Advances in contemporary logic and computer science. Proceedings of the 11th Brazilian conference on mathematical logic*, Salvador, Bahia, Brazil, May 6–10, 1996. Providence, RI: American Mathematical Society, (ISBN 0-8218-1364-1/pbk), *Contemp. Math.* **235**, 295–312 (1999).

In this remarkably well written essay, the author, arguing against an 'historiographical myth', discusses why Husserl's views on logic and mathematics should not had been ignored by an analytic tradition.
